Mirus Australia wins prestigious InterSystems Global Impact Award 2024

(Sydney, Australia – 19 June 2024) Mirus Australia, a leading provider of innovative technology and advisory solutions for aged care, is proud to announce that it has been awarded the InterSystems Global Impact Award 2024. The accolade was presented at the InterSystems Global Summit in National Harbor, Maryland, USA on the 12th of June, recognising Mirus Australia’s exceptional contributions to the Australian aged care industry and its outstanding use of InterSystems technology to drive significant improvements in data, insights, and operational efficiency.

The InterSystems Global Impact Award honors organisations that demonstrate extraordinary leadership and innovation, leveraging InterSystems’ advanced data platforms to deliver measurable positive impacts on a global scale. Mirus Australia was selected from a competitive field of 1,000 international contenders for its Mirus AI projects, which meet the criteria of making a significant difference, breaking new ground, and setting an example.

“We are incredibly honored to receive the InterSystems Global Impact Award,” said Rob Covino, Founder of Mirus Australia. “This recognition reflects our dedication to improving the aged care system and our relentless pursuit of innovation. Our partnership with InterSystems has been instrumental in enabling us to deliver transformative solutions that enhance the quality of data, insights and operational efficiencies for our clients which is putting Australian aged care on the global radar.”

The award was presented during the InterSystems Global Conference, an annual event that gathers industry leaders, innovators, and technology experts from around the world to discuss the latest trends and advancements in data technology. This year’s conference highlighted the critical role of data in addressing global healthcare challenges and celebrated the organisations making significant strides in this area.

Mirus Australia continues to set the standard for innovation in aged care technology, and this award further solidifies its position as a leader in the industry.
